Education

Student partner

Microsoft Learn Ambassador student
2020-Present

Computer science student

4th year student at ESI, Software engineering
2018-Present

Mathematic baccalaureat (Excellent)

Ben Chneb High School
2015-2018

English Access Micro Scholarship

International project created by U.S Department of State
2015-2016

Experience

Web development Internship

Frontend & backend development of web platform
DoctorFinder at LAKKINI.COM
9/2021-11/2021

Web development member

At CSE
2020-2021

Graphic designer

At DZ inventors
2019-2020

Graphic designer

At CSE (Club Scientifique de l'ESI)
2019-2020

Certifications

Improving Deep Neural Networks:
Hyperparameter tuning, Regularization
and Optimization

From Coursera

Neural Networks and Deep Learning

From Coursera

Flutter & Dart complete guide

From Udemy

Technical skills

MySQL MongoDB(basics) Java C#.NET
PHP NodeJS Javascript Python R(basics)
HTML CSS JQuery Bootstrap UML
Tests(JUnit,Pitest,Cucumber,Gherkin) Gradle Git
Docker Regression Classification Clustering
AdobeXd Flutter Microsoft Office

Projects

Platform to search for doctors

Frontend and backend Development of DoctorFinder
9/2021-11/2021

StopCov

Frontend development of mobile application with flutter
to track corona patient and alert suspect cases,
in HackAlgeria hackathon.
2020

BMSGeo

Design of a mobile application for BMS Electronics
to localize and manage its sellers during Hultprize
hackathon
2021

CirSim

Development Desktop App Logic circuit simulator
2/2019-5/2019
